DELAY IN THE DISPOSAL OF PENSION CLAIMS.

At a Press Conference held on the 27th instant in the Chambers of the Chief Minister, it was brought to notice that there have been considerable delays in the disposal of cases of pension due to retired officials of Government. The mattrr was gone into in detail this morning by the Chief Minister at a Conference with the Minister for Law, Minister for Revenue and Public Works and the officers concerned, including the Accountant-General, Mysore. The reasons for the delays in working out pension claims and finalising them were discussed and it was seen that the main cause for the delay in the majority of cases is the non-submission of pension papers within the prescribed time, as a result of imperfect maintenance of records of service in various Departments. It has since been ascertained that there are no pension claims pending before the Accountant-General, Mysore, for more than six months.

It is true that there are several instances of delay in finalising pension claims, but the position is not peculiar to Mysore only. However, in view of the Government's desire to eliminate such delays to the maximum extent possible, a Conference of Secretaries to Government, Heads of Departments, Deputy Commissioners of Districts and other officers concerned is proposed to be convened on the 9th of September 1954 under the Chairmanship of the Minister for Revenue and Public Works, for taking stock

of the present position and adopting suitable measures in future to expedite the disposal of pension claims.

SOCIAL SERVICE BY STUDENTS.

One of the important features of the new scheme of Education, now being implemented in the State, is the emphasis laid on manual labour and social service by students. This live aspect of education has already caught the imagination of the students. Recently, the students of the St. Philomena's College at Mysore offered to do manual labour by participating in the work of cement-concreting that is now being undertaken on the old Mysore Road behind their College. This voluntary offer of service, being worthy of a trial, was taken up with the Public Works Department and Municipal Authorities in Mysore, who discussed the details with the Principal of the College.

The idea is that the students will do this manal work to the extent that is possible. They will be paid wages with reference to the actual quantity of work turned out by them. The wages may be either in cash or in the shape of food (tiffin), as may be desired by the College Authorities. The work undertaken by the students will be under the direct supervision of the senior officers of the Public Works Department.

The progress achieved regarding this work will be watched with keen interest and if the experiment is successful, it will certainly be worthy of emulation in other places in the State.
